Scale Day & Grand Opening for the Tractor Shed

See pictures on page 3

MINUTES of the L.C.R.C.C. MEETING June 7, 2007

The meeting was opened by Keith Bradley in the basement of Corky's at approximately 7:15 PM.

Field Officer Report

Some work is being done on the tractor. It seems like one of the wheel bearings has been leaking grease. This may be due to the transmission being too full or the seal might need replacing. It is in running condition but Bill will keep an eye on it.

Dick Hultz volunteered to cut the grass on Friday June 8th so the grass will be looking good for the "Scale Airplane" event coming up on Sunday June 10th.

Bill Brown is on vacation.

Safety Officer Report

Dick Hultz wants pilots to make sure they have their airplane under full control at all times. Members should check the new rules board and familiarize themselves with the rules and new flying areas as outlined in the graphic.

Treasurer's Report

Keith Bradley gave the treasurer's report which is posted in the FlyPaper. Steve Yeaton was on vacation.

Events Director Report

Keith Storrs wanted to remind everyone of the "Scale" event day coming up Sunday June 10th. Members attending the meeting also gave Ray Zinkowski a round of applause for filling in on the cooking at the May event. It was suggested that perhaps Ray should cook at all the events of which he quickly declined. Be sure to keep an eye on the events schedule posted in the "FlyPaper" as the dates can and do occasionally change.

Old Business

Keith Bradley suggested that Sunday at the "Scale Fly Event", we hold a ribbon cutting ceremony for the newly completed tractor shed.

Several items were purchased for use in the new shed to help organize equipment being used for events and maintenance. Gary Allen has some plastic chairs stored at his house which he will be bringing for storage at the field. These chairs were purchased and used at the old field site.

New Business

A motion was brought forth and seconded to build some new flight stands. It was decided that \$250 will be dedicated to that project. Several members attending the meeting volunteered to work on the project.

New Business (Cont.)

It is thought that about 4 new stands could be built with that much money. Bob Davis is also going to give the club a couple of picnic tables for use at the field.

Gary Allen has some Wild Cat 2/4 cycle 15% fuel for sale at a good price.

New Members

No new members were present this month.

Show and Tell

Keith Storrs has a "Tmax 400" from the Great Planes Group (sorry if I'm wrong on this) for sale with servos and gyro for \$200.

Buzz Paricka brought in a beautiful scratch built Super Sportster with a Saito 100. He made several modifications to it including larger rudder, ailerons and elevator. He tinted the canopy with die. This plane must be seen to be appreciated. Good job Buzz.

Meeting Close

Keith Bradley closed the meeting.

Recording Secretary

Bill Lewis

From the D.C. Radio Control Club
Montgomery County, Maryland

Table of Excuses

Please give excuse by the number in order to save time

1. I didn't know you were waiting for the pin.
2. Did you see my airplane get glitched?
3. I ain't got it.
4. I have more crashes because of bad radios.
5. That airplane was always squirrely.
6. I don't know who did it, but someone must have turned on their transmitter and shot me down.
7. I just lost control; everything went dead.
8. I thought I was on the field.
9. That's that only time I ever left my transmitter on. Can you help me pick up the pieces?
10. I didn't know you were in the landing pattern, next time I'll look before I taxi out. Do you think it can be repaired?

Optional- I didn't realize I was that low when I flew over the pit area. Is three models a record?
