MINUTES of the L.C.R.C.C. MEETING May 3, 2007

The meeting was opened by Keith Bradley in the basement of Corky's at approximately 7:15 pm.

Field Officer Report

Bill Brown said that he has rolled the field once and cut the grass twice so far. He plans on rolling the field several more times. Dick Hultz volunteered to cut the grass on Friday May 4th so the grass will be looking good for the "First Flight Fright Day" event coming up on Sunday May 6th.

Safety Officer Report

Steve Yeaton made a new label for the 2.4 GHz area of the frequency board and Keith Bradley installed all new clips for the permits. Dick also wants to remind everyone to post their permit on the board even if you use the newer spread spectrum radios or the older 72 MHz radios.

Treasurer's Report

Steve Yeaton gave the treasurer's report which will be posted in the Fly Paper.

Events Director

Keith Storrs could not make it to the meeting. There is the first flying event of the year as posted on May 6th. Gary Allen was going to be

the host but will not be able to make it. A friend of his passed away in Ladysmith Wisconsin so he will be attending the funeral instead. One of the new club members, Ray Zinkowski, is going to fill in for Gary. Gary has volunteered to host the last event of the year in place of the event he will be missing May 6th. Thanks Ray and Gary!!! Sorry about your friend.

We now have volunteers for the Club Picnic as Jim and Joan Doubek would like to be the hosts but a new date will be announced. Be sure to review the Events Schedule on page 4 of this *FlyPaper* and posted on the web site as the dates can and do occasionally change.

Old Business

There is nothing new happening with the Boy Scouts. Everything is basically on hold until after September. John Russell knows someone in the Scouts that might be able to make things go forward.

The shed is coming along. The framework is completed and the sheeted walls and roof are on. See the progress on page 3.

Steve Yeaton placed the new flight station for the helicopter practice area, sign to follow.

Once the tractor shed is completed, the club would like to have some sort of official celebration for the opening. Perhaps a ribbon cutting could be tied in with one of our scheduled events.

There was discussion on when the field should be mowed. Bill Brown said that when he arrived to cut the grass about 7am on a Sunday morning there were already people at the field. The rules state the "Hours of Operation are 8:30 AM 'till Sunset". This means that no one should even be at the field before operating hours. *Editor's note: The new rules sign has been posted with the correct map of the field. Unfortunately the hours of operation were stated incorrectly and we are working with the Forest Preserve to get it changed (8:30 AM to Sunset, daily).*

New Business

We had a visit from a businessman who is interested in making graphics for our airplanes. His business card is posted in this *FlyPaper*. After some discussion between the Doubeks and Keith Storrs, it looks like the club picnic this year will be held on August 12th. Be sure to keep a close eye on the posted events in case of date changes.

Steve Yeaton would like to remind everyone that he would post pictures of planes and the field or anything else of interest to the club on the web site or in the *FlyPaper*. Carry your digital camera with you when ever you are at the field and email your shots to Steve at lcrccoffice@db3broadband.com. The only thing needed is your pictures.

New Members

No new members were present this month.

Show and Tell

One plane was brought in but unfortunately there was no discussion. *Sorry about that.* It looked like a Delta Wing to me. Hopefully it will show up at the next meeting so we can get some good info on it.

Meeting Close

Keith Bradley closed the meeting.
