Minutes for LCRCC Meeting February 7, 2008

The meeting was called to order by Dick Hultz in the basement of Corky's at approximately 7:15 pm.

Field Officer's Report

Bill Lewis says nothing much to report until spring.

Safety Officer's Report

Keith Storrs (jokingly) said he was working on a scheme for random safety checks by flying other club member's models.

Treasurer's Report

Steve Yeaton gave the treasurer's report which is posted in the Fly Paper. He also mentioned that of the 86 people from last year, only 30 or so signed up so far. However, there were 5 or 6 who signed at the February meeting.

Events Director

Glenn Learnahan had no events scheduled as of this meeting but will be working with Dick Hultz to get something going. If any member has a desired event, please contact Glenn.

Old Business

Dick Hultz reported that after his return from Florida, he will be in contact with the Forest Preserve people to see if we can get the apron in front of the garage door, along with a Porta-Potty. Maybe later, a shelter over the spectator area.

Cooks are needed for the 5 annual special event. So far, Dick Hultz, Chuck Brzezicki, and Sam Brown have volunteered. 2 more are needed.

On a sad note, Sal Grisaffi's wife had passed away. She had been ailing for some time. Our sincerest condolences, Sal.

Larry Borchardt plowed the drive and parking area for the New Year's Fun Fly with the plow from Kenosha Airport. For his endeavors, the club gave him a \$50.00 gift certificate to Olive Garden. Our special thanks to Larry

A reminder to club members who have not as yet renewed their membership, the deadline is the March meeting. This deadline is because a roster of the officers and the membership must be filed with the AMA by the end on March.

New Business

Steve Yeaton had a bunch of materials from the AMA, one small part of it all is the new classification of Park Flyer. Membership in this program will be at a reduced price. However, there is a lower insurance benefit and a reduction of other benefits that normally apply to 'full' membership. Contact Steve or visit the AMA web site if you require more information. A Park Flyer model is described as being no more than 2 pounds, and will fly at less than 60 MPH.

**Attention!! The next meeting is the last chance to
renew your membership without penalty!
Membership renewals after the March meeting will
be charged an additional \$20 late fee!**

(Application/renewal forms included with your email.)

**Treasurers Report For
February**

2008

| | | |
|---------------|-----------------|-------------------|
| January | Opening Balance | \$3,885.19 |
| Credits | | |
| | Dues Deposited | \$508.00 |
| January | Total Credits | <u>\$508.00</u> |
| Disbursements | | |
| January | Total Debits | <u>\$0.00</u> |
| January | Ending Balance | <u>\$4,393.19</u> |

Minutes continued...

Show and Tell

Keith Storrs is developing a larger electric model, 1500 sq. in. wing, and will require about 2200 watts of power. No additional info on the model at this time other than it will be sufficient power for an 18-22 lb. model with about a 6-8 minute flight time.

Bill Lewis gave a talk on several A123 type cells that he has been working with. He is using two of these cells for his radio flight back. This type of cell he displayed drops from charged voltage to use voltage quickly, but remains at this voltage until it goes dead. Contact Bill if you wish more information.

Jim Spice had a very well decked-out helicopter, with working lights and a spot light in front. My recorder stopped during his talk, so I cannot give any more info, except that it is hand painted and hand polished to a beautiful finish. You can contact Jim for more info, or maybe meet him at the field. My apologies Jim.

Meeting Close

Dick Hultz closed the meeting at approximately 8:00 PM.
